A Report on Webinar on
BUSINESS INTELLIGENCE

3RD JUNE-2020

in Collaboration with
Computer Society of India

A Webinar on **Business Intelligence** was organized by the department of CSE on 3rd June-2020 in Association with Chalapathi Institute of Engineering & Technology and CSI Student Chapter (Region V).

The session was started at 5 PM. The Program was hosted by Dr. K.Kiran Kumar, HOD CSE of CIET. Initially principal, Dr. M. Chandrasekhar, welcomed the participants and told them about the importance of these webinars during these hard days. Mr. M. Venu Gopal, Infosys, Hyderabad was the resource person for this webinar. The webinar is on BUSINESS INTELLIGENCE.

The topics discussed are what is business intelligence, its capabilities, and an Dashboard is constructed using an BI tool called QlikView. For example, if you want to take some groceries then using the navigations provided you can take that product directly from the shelves and then check out for billing. You can directly use the navigations and not rely on any sales person for the product. Based on the business we can moderate the discount. The Business Intelligence we take the whole information and process it and show only the relevant information for the user. BI is a set of theories, methodologies, processes, architecture and technologies that transform raw data into meaningful and useful information. It can handle large amount of information to help identify and develop new opportunities. It provides historical, current and predictive views of business operations.

About 631 students and faculty participated from all years of B.Tech and acquired good amount of knowledge. Entire webinar was coordinated by Dr. K.Kiran Kumar, HOD-CSE, CIET. We thank all the participants for making this event successful. Finally, there was a good feedback for the Webinar conducted.
